

	Title	Description	Eligibility	Due Date	Amount	Type of funding	Uri
1	19th Annual P3 Awards RFA	19th Annual P3 Awards: A National Student Design Competition Focusing on People, Prosperity, and the Planet Request for Applications (RFA)	Public and private institutions of higher education (limited to degree-granting institutions of higher education) located in the U.S. (includes eligible institutions of higher education located in U.S. territories and possessions) are eligible to apply to be the recipient of a grant to support teams of undergraduate and/or graduate students. Profit-making firms are not eligible to receive assistance agreements from the EPA under this program. The students on the teams supported by the institution receiving the grant must be enrolled in the college, university, or post-secondary educational institution they will be representing at the time the application is submitted. Institutions are allowed to submit more than one application where each application represents a unique design concept and student team. For the purposes of grant administration, the team's faculty advisor will be designated the Principal Investigator throughout the P3 grant award and competition process.	October 27, 2021: 11:59:59 pm Eastern Time	The EPA award amount for each Phase I grant is up to \$25,000 for its one-year duration.	Grant	https://www.epa.gov/system/files/documents/2021-08/19th-annual-p3-phase-1-rfa-final.pdf
2	2021 National Fish Habitat Action Plan	Protect, restore, and enhance fish and aquatic habitats, as outlined in the National Fish Habitat Action Plan (Action Plan). Projects under this program, directly or indirectly, support and promote public access to recreational fishing opportunities. Aquatic habitat conservation projects under the National Fish Habitat Partnership (NFHP) program must protect, restore, and enhance fish and aquatic habitats, as outlined in the National Fish Habitat Action Plan (Action Plan). Projects under this program, directly or indirectly, support and promote public access to recreational fishing opportunities. Funded projects may be carried out by Fish Habitat Partnerships (FHPs) recognized by the National Fish Habitat Board (Board), in cooperation with their partners. More information about the FHPs and their partners can be found online at www.fishhabitat.org .	State governments Special district governments Public housing authorities/Indian housing authorities Private institutions of higher education Native American tribal organizations (other than Federally recognized tribal governments) Others (see text field entitled "Additional Information on Eligibility" for clarification) Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education Native American tribal governments (Federally recognized) Independent school districts Individuals Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education For profit organizations other than small businesses Small businesses Public and State controlled institutions of higher education	Dec 31, 2021 Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.	Estimated Total Program Funding: \$4,300,000 Award Ceiling:\$900,000 Award Floor:\$1,000	Cooperative Agreement Grant	Search Grants GRANTS.GOV https://www.grants.gov/web/grants/view-opportunity.html?opplid=333451
3	2021 RFA for Great Lakes Biology Monitoring Program: Zooplankton, Mysis, and Benthic Components	Research fund to complete sample collection and analyses in support of the Zooplankton, Mysis, and Benthic components of the Great Lakes Biology Monitoring Program.	Non-federal government entities, nonprofit private agencies, institutions and organizations and colleges and universities. Restrictions: Individuals, foreign organizations and governments, nonprofit organizations exempt from taxation	RFA closes Oct. 29, 2021.	~\$6,750,000 may be awarded for one cooperative agreement over approximately five years, consisting of incremental funding of about \$1,350,000 per year.	Grant	2021 RFA for Great Lakes Biology Monitoring Program: Zooplankton, Mysis, and Benthic Components US EPA
4	AAUW American Dissertation Fellowship	Funding to offset living expenses during final year of dissertation-writing	Women who are US citizens or permanent residents conducting research full-time	November 1, 2021	\$20,000	Fellowship	https://www.aauw.org/resources/programs/fellowships-grants/current-opportunities/american/
5	AAUW Career Development Grant	Career Development Grants provide funding to women who hold a bachelor's degree and are preparing to advance or change careers or re-enter the workforce in education, health and medical sciences, or social sciences. Primary consideration is given to women of color and women pursuing their first advanced degree or credentials in nontraditional fields. I believe that environmental education or applications of social sciences within the field of environmental science (such as ethnobotany) would make some students going into environmental fields eligible. Funds are available for tuition, fees, books, supplies, local transportation and dependent care.	Career Development Grants are open to individuals who identify as women and: are U.S. citizens or permanent residents. hold an earned (not honorary) bachelor's degree. received their bachelor's degree on or before June 30, 2014, do not hold an earned (not honorary) graduate or professional degree. plan to enroll or are enrolled in courses/activities that are required for professional employment or advancement, and plan to enroll or are enrolled in one of the following program types: Bachelor's or associate degree program that is different from the field of study of the previously earned bachelor's degree. Master's degree program. Certification program. Technical school. Plan to enroll or are enrolled in one of the following fields of study: Education. Health and Medical Sciences. Social Sciences. (As mentioned, I believe that certain students who are going into environmental sciences would qualify for this grant, so long as their interests aligned with one of these other fields of study; an overlap between environmental sciences and education, for example).	Application due November 15 (repeats annually).	\$2,000 - \$12,000	Grant	https://www.aauw.org/resources/programs/fellowships-grants/current-opportunities/career-development/
6	AAUW Honolulu Branch Education Funds	Scholarship for women living in Hawai'i who are majoring in STEM	Must be a resident of Hawai'i and demonstrate financial need. Attend any four year, not-for-profit university in Hawai'i as a full time student. Must be female and have a 3.0 GPA or above. Need to submit two letters of recommendation.	February 1	N/A	Scholarship	https://hcf.scholarships.ngwebsolutions.com/scholarx_scholarshipsearch.aspx
7	AAUW International Fellowships	Women pursuing full-time graduate or postdoctoral study in the United States who are not U.S. citizens or permanent residents	Graduate Students (Masters) Graduate Students (PhD) Postdoc & Early Caree	November 15, 2021	\$18,000—International Master's/First Professional Degree Fellowship \$20,000—International Doctoral Degree Fellowship \$30,000—International Postdoctoral Research Leave Fellowship.	Fellowship	https://www.pathwaystoscience.org/programhub.aspx?sort=GRD-AAUW-InternatFell
8	AFE Scholarships in Floriculture and Horticulture Conservation Research Small Grants Program	AFE scholarships are intended for sophomore through graduate level college students pursuing degrees in floriculture and horticultural fields	* Be pursuing a career that is in a field related to FLORICULTURE or HORTICULTURE. * Be a CITIZEN OR RESIDENT OF THE U.S. OR CANADA, or be enrolled in an accredited educational institution in the U.S. or Canada. * HAVE A MINIMUM 2.0 GRADE POINT AVERAGE to be considered for most scholarships. (Applicants with lower grade point averages may be considered if they have otherwise outstanding qualifications or extenuating circumstances.)	May 1, 2022	\$5,000	Scholarship	https://endowment.org/scholarships/

9	After College STEM Inclusion Scholarship	This scholarship is awarded by AfterCollege Inc. and is meant to financially aid those in the STEM field from minority communities.	Open to currently enrolled students with a 3.0 GPA working toward a degree in STEM from a group underrepresented in their field of study based on gender, race, ethnic background, disability, sexual orientation, age, socio-economic status, nationality and other non-visible differences.	September 30, 2021	\$500	Scholarship	https://www.aftercollege.com/company/aftercollege-inc/10/scholarship/291/?source=ur-schex
10	Agnes Jones Jackson Scholarship	The National Association for the Advancement of Colored People (NAACP) established this memorial scholarship in honor of its late long-time San Francisco branch member by the same name. NAACP makes 20 to 40 annual awards of \$2,000 via this educational assistance fund.	To satisfy primary threshold eligibility requirements, applicants must be: 1) U.S. citizens; 2) younger than 25 years of age; 3) NAACP members in good standing; 4) demonstrate financial need based upon federal poverty guidelines; 5) currently or accepted for future enrollment in an accredited U.S. post-secondary educational institution.	Check around March.	20-40 annual awards of \$2000.	Scholarship	https://naacp.org/find-resources/scholarships-awards-internships
11	Agriculture and Food Research Initiative-Education and Workforce Development: Predoctoral Fellowship	Funds for research, education, and extension projects related to food and agricultural science	Citizens, nationals, and permanent residents of the US who advance to PhD candidacy by the given deadline	TBA	\$180,000 maximum for project period of 3 years	Fellowship	https://nifa.usda.gov/funding-opportunity/agriculture-and-food-research-initiative-education-workforce-development?utm_content=&utm_medium=email&utm_name=&utm_source=govdelivery&utm_term=
12	Alaska Sea Grant State Fellowship Program	A unique professional opportunity for soon-to-graduate or recently finished graduate students interested in the science and policy needed to keep our marine resources healthy	Graduate students who are close to completing their degree or have a recently earned degree in a relevant discipline can apply. Applicants must be U.S. citizens, and in good academic standing while completing their degree at an academic institution. Alaska residents and students completing their degrees at Alaska institutions will be given preference.	Applications for 2022 Fellows will be due in February, 2022	For fellowships starting in 2021, each fellow will receive \$50,500 in stipend for the twelve-month assignment (~\$4,208 /month). Additional funds will be available to cover travel for interviews and fellowship-related activity. Additional travel associated with the fellowship may be covered by the host agency. Fellowship income is taxable; please contact your tax advisor or the Internal Revenue Service for current information.	Fellowship	https://alaskaseagrant.org/education/awards-fellowships/state-fellowship/
13	American Samoa Community College Marine Science Program Scholarship	The American Samoa Community College Marine Science Program Scholarship is a scholarship program intended to support students seeking college or graduate degrees in marine science or a related field. Recipients will be selected based on their merit, which will consist of their GPA, research experience, community service, brief essays, and letters of recommendation. Financial support in the amount of \$5,000 will be provided to two (2) recipients each fall and spring semester in 2020-2022. The scholarship is intended to support students throughout their academic journey both financially as well as by connecting students with a mentor. The mentor will serve to support the scholar during their academic career, and to assist the scholar in transitioning to the workplace upon graduation.	1. Must be a current or former student of the American Samoa Community College Marine Science Program. 2. Must be accepted to a four-year university or graduate program with the intention of majoring in marine science or a related field. 3. Must have a cumulative GPA of at least 2.5.	Offered 3 months before each semester and deadline due a month before each semester(2020-2024)	\$5,000.00	Scholarship	https://sites.google.com/view/08yeQ2ZzEhN2geEZUzZFm0xxRjQ/p/1xYqDS_76pnQIGjKjVP4wNzR2iUP52edit?resourcekey=0-U6ubly3JFY-2x_ovggYjw
14	AMS Graduate fellowship	The AMS Fellowship Program is a source of unique opportunities for outstanding students looking to pursue graduate education in the atmospheric or related sciences. To date, 375 students have been designated as AMS fellowship recipients. The program helps these first-year graduate students to be educated about unique challenges facing the world so that they may better tackle real-world issues after graduation. Fellowships come with several benefits that include financial support, the opportunity to be special guests at the AMS Annual Meeting with exclusive events therein, and ongoing academic and career support from AMS. The Society encourages applications from women, minorities, and disabled students, traditionally underrepresented in the atmospheric and related oceanic and hydrologic sciences. Have a minimum grade point average of 3.0 on a 4.0-point scale. U.S. citizens or hold permanent resident status. No age restriction exists.	First year graduate students	Jan. 1, 2022	\$25,000. Stipend disbursed through the foundation.	Stipend	AMS Graduate Fellowship
15	Amy A. Ross Scholarship in Bioscience	Funded by Motorola Solutions Foundation, this scholarship is meant to increaseLGBTQ+ visibility, diversity, and inclusion in the biosciences.	Applicant must have 2 years at a University, be studing STEM, identify as LGBTQ+, and actively participate in LGBTQ+ organizations.	April 1 - June 4 2021	\$2,000	Scholarship	https://www.noqistp.org/programs-projects/scholarships/
16	Anna K. Gower and Annabelle K. Gower Scholarship	This scholarship is open to students who are enrolled or will enroll at an accredited, two or four year, not-for-profit institution and have demonstrated good leadership skills and academic achievement	--Demonstrate financial need --Must be of Native Hawaiian ancestry --Resident of the State of Hawaii --Must submit an essay and 2 letters of recommendation	January 1, 2022	Varies	Scholarship	https://scholarsapp.com/scholarship/anna-k-gower-and-annabelle-k-gower-scholarship

45	Early Career Grant National Geographic	Early Career Grants are designed to offer less experienced individuals an opportunity to lead a project. Grant projects last one calendar year or less.	Less experienced individuals-early career (less than five years of experience).	April	Projects are typically funded for US \$5,000 and cannot exceed US \$10,000.	Grant	https://www.conservation-careers.com/top-conservation-scholarships/#early

46	Earthwatch	To fit our citizen-science model, unless otherwise stated in the request for proposals, all proposed projects must: Have quantifiable goals and measurable impacts of action taken by the project; Have a 3-year or longer duration (longer-term research may receive priority support); Incorporate field-based research and data collection; Have data gathered primarily by citizen-scientist participants recruited by Earthwatch; Field approx. 4 to 10 teams per year, with 4 to 15 participants per team as needed for data collection; Have short (1-3 day) and/or long (7-14 day) duration teams (projects that enable both short and long duration teams will receive priority support); For teams > 1 day, provide reputable housing for volunteers within a 45-minute drive from site; Field adult, high school and college student, teacher, and corporate partner groups; Be run in English, with all communications by field staff and supporting documents in English; Educate volunteers about the project's science and its relevance to global priorities; Engage with, provide outreach and contribute to conservation actions, or otherwise collaborate with local community stakeholders; Share project data with stakeholders, and if possible, contribute to open-source datasets; Partner with collaborators and receive support from at least one other funding source.	We support research projects that produce rigorous, relevant, and impactful science, address global change, and actively involve citizen-scientist participants.	N/A	Annual budgets for projects with long-duration teams range between US \$20,000-\$80,000, with most of that covering volunteer and staff expenses while in the field.	Grant	https://earthwatch.org/research/apply-for-research-funding
47	Eastside & Northshore Kaua'i Scholarship Fund	For students from Kaua'i to reach their education goals	Demonstrate financial need and attend an accredited two or four year not for profit institution in the US as a full time student. Be a resident of specific areas on Kaua'i. Minimum 2.5 GPA and a letter of recommendation.	February 1	N/A	Scholarship	https://hcf.scholarships.ngwebsolutions.com/scholarx_scholarshipsearch.aspx
48	Eckenfelder Scholarship	Dr. Wesley Eckenfelder, Jr.'s career as an environmental trailblazer spanned more than 50 years, during which time he trained thousands of graduate students and professionals in the science and art of industrial wastewater treatment. To honor his dedication to the environmental industry, we offer a \$5,000 Dr. Wesley Eckenfelder, Jr. Scholarship to support students who are interested in pursuing a career in the environmental profession.	A United States citizen or permanent resident. A full-time student enrolled in his/her Junior, Senior year or graduate program at an accredited college/university. Declared major in civil, chemical, mechanical, electrical or environmental engineering or one of the environmental sciences (e.g. geology, hydrogeology, ecology). Cumulative GPA of 3.0 or higher on a 4.0 scale (or equivalent on a 5.0 scale).	Currently closed for 2022 but will open back up in May 2022 for 2023.	\$5,000.00	Scholarship	https://brownandcaldwell.com/careers/eckenfelder-scholarship/
49	Edward C. Raney Fund Award	Provides support for young ichthyologists for museums or laboratory study, travel, fieldwork, or any other activity that will effectively enhance their professional careers and their contributions to the science of ichthyology	Must be a member of ASIH and be enrolled for an advanced degree (graduate students).	March 1st, 2021	\$400-\$1000 will be awarded on basis of both merit and need	Grant	https://asih.org/student-awards/raney-fund-award
50	Environmental Education (EE) Grants	Applicants are to support environmental education projects that promote environmental awareness and stewardship and help provide people with the skills to take responsible actions to protect the environment.	local education agency state education or environmental agency college or university non-profit organization as described in section 501(c)(3) of the Internal Revenue Code noncommercial educational broadcasting entity tribal education agency Applicant organizations must be located in the United States or territories and the majority of the educational activities must take place in the United States, or in the United States and Canada or Mexico; or in the U.S. Territories.	TBD	This grant program provides financial support for projects that design, demonstrate, and/or disseminate environmental education practices, methods, or techniques. Since 1992, EPA has distributed between \$2 and \$3.5 million in grant funding per year, supporting more than 3,800 grants.	Grants	Environmental Education (EE) Grants US EPA
51	Environmental Justice Small Grants Program	The Environmental Justice Small Grants Program supports and empowers communities working on solutions to local environmental and public health issues. The program is designed to help communities understand and address exposure to multiple environmental harms and risks.	Incorporated non-profit organizations—including, but not limited to, community-based organizations, grassroots organizations, environmental justice networks, faith-based organizations and those affiliated with religious institutions US Territories Tribal governments, either federally-recognized or state-recognized – including Alaska Native Villages; or Tribal organizations Freely Associated States (FAS) – including state and local governmental entities and local non-profit organizations in the Federated States of Micronesia, the Republic of the Marshall Islands, and Palau	The Fiscal Year (FY) 2021 EJ Small Grants Request for Applications has now closed.	Environmental Justice Small Grants fund projects up to \$75,000, depending on the availability of funds in a given year. All projects are associated with at least one qualified environmental statute.	Grant	Environmental Justice Small Grants Program US EPA
52	Environmental Research & Education Foundation Grants	The Environmental Research & Education Foundation (EREF) accepts proposals for research projects and educational initiatives for developing tools that promote awareness or increase knowledge of the solid waste industry. Awards are generally up to \$500,000. Because the amount of funding for research is limited, the foundation encourages submitting parties to form partnerships with other funding sources (real-dollars or in-kind services). Parties should identify the sources and amounts of external funding in their submissions. The development of tools to be used for commercial purposes, or that will be considered proprietary, will generally not be considered unless approved by EREF a priori. Successful pre-proposals will be invited to submit a full proposal.	General Public	December 1st and May 1st	Up to \$500,000.00	Grant	http://heea.org/resource/about.aspx?s=106289.0.0.89929
53	EPA Aquatic Resources Impacts Internship	Research, review, summarize and compile meaningful ecological performance standards for compensatory mitigation banks and recommend improvements to existing approaches to established standards. The assessment would include an evaluation of the various aquatic resource habitat types found in the Texas and Louisiana Gulf Coast Region.	U.S. Citizen Degree: Bachelor's Degree, Master's Degree, or Doctoral Degree received within the last 60 months or currently pursuing.	10/20/2021 3:00:00 PM Eastern Time Zone	stipend ranging from \$3,176 up to \$3,972	Stipen	Zintellect - Climb Higher

54	EPA Cumulative health impacts grants	Request for Applications for studies related to cumulative health impacts of climate change, centered around Environmental justice, vulnerable populations and life stages, and community-based research	Public and private nonprofit institutions/organizations, public and private institutions of higher education, and hospitals located in the U.S. and its territories or possessions; state and local governments; Federally Recognized Indian Tribal Governments; and U.S. territories or possessions are eligible to apply	November 16, 2021: 11:59:59 pm Eastern Time	Proposals for less than \$1,350,000.00 will be considered	Grant	https://www.epa.gov/system/files/documents/2021-09/shc-climate-change-and-ej-rfa_final.pdf
55	EPA Environmental Hazards and Public Health Fellowship	Research opportunity for independent and self-motivated researcher to participate in innovative and interdisciplinary projects focused on various aspects of environmental exposures and their impact on public health and wellbeing.	U.S. Citizen Only Degree: Master's Degree or Doctoral Degree received within the last 60 months or anticipated to be received by 12/31/2021 11:59:00 PM.	12/10/2021 3:00:00 PM Eastern Time Zone	The participant will receive a monthly stipend commensurate with educational level and experience.	Fellowship	Zintellect - Climb Higher
56	EPA National Priorities Water Grant	NATIONAL PRIORITIES: WATER INNOVATION, SCIENCE, AND ENGAGEMENT TO ADVANCE WATER REUSE	This solicitation is available to public and private nonprofit institutions and public and private universities and colleges located in the United States and its territories or possessions. Foreign entities, States, the District of Columbia, State and local government departments, territories, possessions, and Federally Recognized Indian Tribal Governments of the U.S., are not eligible to apply under this RFA. Profit-making firms and individuals are not eligible to receive assistance agreements from the EPA under this program.	September 29, 2021: 11:59:59 pm Eastern Time	\$3,246,000 or less	Grant	https://www.epa.gov/system/files/documents/2021-07/ry21-national-priorities-reuse-cooperative-agreement-rfa-final.pdf
57	F21AS00155 Endangered Species Recovery Implementation	The principal objective of this Recovery Implementation funding opportunity is to support the implementation of priority recovery actions for federally endangered and threatened species. The ESA conveys the importance of recovery plans as a central organizing tool for guiding each species's recovery process by requiring their development for every listed species. Recovery plans establish an overall recovery vision that, among other things: • Defines the point at which protections under the Endangered Species Act (ESA) are no longer needed, • Identifies and prioritizes the most effective and feasible suite of recovery actions that will promote species survival and recovery, • Provides the public and policy makers with an overall estimate of the time and cost to recover species, and the ability to measure success and resources needs, and • Aids the Service in working with others to improve the status for imperiled species	Public and State controlled institutions of higher education State governments Private institutions of higher education Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education County governments Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education For profit organizations other than small businesses Special district governments Native American tribal governments (Federally recognized) Small businesses City or township governments Independent school districts Individuals Native American tribal organizations (other than Federally recognized tribal governments)	September 30, 2021	\$1,000	Grant	https://www.grants.gov/web/grants/view-opportunity.html?oppId=329584
58	Fish and Wildlife Service: Neotropical Migratory Bird Conservation Act Grants	General research funds for projects related to the conservation of neotropical migratory birds and their habitats in North America and Latin America	Unrestricted	November 4, 2021	\$10,000-\$200,000	Grant	https://www.grants.gov/web/grants/search-grants.html?keywords=conservation
59	Frances M. Peacock Scholarship for Native Bird Habitat	The Frances M. Peacock Scholarship for Native Bird Habitat provides financial aid to study areas in the United States that provide seasonal habitat for threatened or endangered native birds and to tend useful information for land-management decisions.	Open to college seniors and graduate students only (second-semester juniors may apply for their senior year). Eligibility is open to U.S. Citizens and permanent residents who are enrolled in a U.S. - based institution.	January 15th	Provides financial aid to at least one scholar for \$4500 annually. In special instances because of two unusually fine candidates or two candidates working on one project, the award may be divided between two candidates.	Scholarship	https://www.gcamerica.org/scholarships/details/frances-m-peacock-scholarship-for-native-bird-habitat
60	Frank M. Chapman Memorial Fund American Museum of Natural History	Small, short-term award helping with ornithological research expenses. NOT for salaries/stipends.	Master's Ph.D. students and Post-Docs doing ornithological research	11/15/2021 Annual	Usu. \$1,000 but up to \$3,000	Grant	Ornithology Grants American Museum of Natural History (amnh.org)
61	Fulbright Anne Wexler scholarships in Public Policy	The aim of the Fulbright Anne Wexler scholarships in Public Policy are to grow Australian-American educational linkages by building a network of public policy experts and to encourage ongoing policy exchange between both countries. The award will enable U.S. students with strong academic credentials and leadership potential to undertake a master's degree in Australia in a key area of public policy such as health, sustainability, energy, climate change, regional security, education, political science, history or government relations.	Dual citizens of this country are not eligible Residency in host country not permitted in year prior to grant	October 12th of each year (repeats yearly)	The Fulbright-Anne Wexler Master's Award in Public Policy will pay up to AUD\$35,000 per year in tuition fees.	Grant	https://us.fulbrightonline.org/countries/east-asia-pacific/australia/275
62	Fulbright Scholarship	Provides funds for tuition and transportation. Applicant will do research abroad in the host country that they specify for their project.	Graduate students enrolled in an accredited University in the United States.	Oct. 12,2021	Covers tuition, student fees and eligible student expenses. Distributed by the UH Hilo Financial Aid Office.	Fellowship	Fulbright Scholarship
63	Fulbright-National Geographic Storytelling Fellowship	The Fulbright-National Geographic Storytelling Fellowship, a component of the Fulbright U.S. Student Program, provides opportunities for selected Fulbright U.S. Student grantees to participate in an academic year of storytelling on a globally significant theme. This Fellowship is made possible through a partnership between the U.S. Department of State and the National Geographic Society.	The Fulbright-National Geographic Storytelling Fellowship is an enhancement award to a Fulbright Open Study/Research proposal. Fulbright-National Geographic Fellows must be selected for a Fulbright Study/Research Grant by the eligible country for which they applied and meet the criteria of the Fulbright Study/Research requirements of the host country.	October 15th	In addition to receiving standard Fulbright benefits (for travel, stipend, health, etc.) and a materials and reporting special allowance, Storytellers receive instruction in storytelling techniques, including effective blog writing, video production, photography, public speaking, and other relevant training by National Geographic staff prior to their departure. National Geographic also provide editorial mentorship for Fellows during their Fulbright grant period. Storytellers provide material for National Geographic Society's Field Notes blog throughout their grant term and have the opportunity to pitch stories for other National Geographic platforms.	Fellowship	https://us.fulbrightonline.org/fulbright-nat-geo-fellowship
64	Fulbright Fellowship	Applicants for study/research awards design their own projects and will typically work with advisers at foreign universities or other institutes of higher education. The study/research awards are available in approximately 140 countries. Program requirements vary by country, so the applicants' first step is to familiarize themselves with the program summary for the host country.	Depends on country of choice - general:Biographical data, program info, statement of grant purpose, affiliation letter, personal statement, foreign language forms, recommendations, transcripts, ethical requirements	10/12/2021:Annual	subject to federally-appropriated funds	Grant	https://us.fulbrightonline.org/about/fulbright-us-student-program
65	Fund for Wild Nature Small Grants	The Fund for Wild Nature provides "small grants to small groups who get things done." The fund provides money for campaigns to save and restore native species and wild ecosystems, including actions to defend wilderness and biological diversity. Most grants awarded in the past ranged from \$1,000-\$3,000.	The fund supports development of citizen science endeavors. It does not support basic scientific research, private land acquisition, individual action or study, or conferences. The fund will only support media projects that have a clear strategic value and a concrete plan for dissemination of the final product.	May 1st & October 1st	\$1,000 to \$3,000	Citizen Science Projects, Grant	http://heea.org/resource/about.aspx?s=52810.0.0.89929

66	Future Conservationist Awards	Each worth \$15,000, Future Conservationist Awards are granted to teams of early-career conservationists who are conducting high-priority projects focused on protecting species listed as Data Deficient, Vulnerable, Endangered or Critically Endangered on the IUCN Red List. Projects must take place in an eligible country, be led (or co-led) by a national of one of these countries, involve at least three people and last between three to 12 months.	If you have not received a CLP grant before, you can only apply for a Future Conservationist Award. If you previously received a CLP Future Conservationists Award, you can apply for a Follow-up Award. If you are a previous winner of a Follow-up Award, you can apply for a Conservation Leadership Award.	11:59pm GMT on Sunday, 10 October, 2021.	\$15,000	Grant	https://www.conservationleadershipprogramme.org/grants/grant-overview/
67	Future For Nature Foundation	We are searching for natural leaders, between 18 and 35 years old, who have proven that they can make the difference for the survival of wild species and the future for nature.	18-35 year olds	September 1st, 2021	\$50,000	Grant	https://futureformature.org/are-you-the-future-for-nature/
68	Garden Club of America	The Garden Club of America offers 28 merit-based scholarships in 12 areas. See link for the many scholarship offerings, eligibility, and application details.	Applicants must be enrolled in a graduate program at a university within the United States, and must be U.S. citizens or permanent residents.	Variable application deadlines based on funding type, but around mid-January.	Varies, but up to \$5000.	Merit Based Scholarships, fellowships, and awards.	https://www.gcamerica.org/scholarships
69	GEM MS Engineering and Science Fellowship Program	The goals of the GEM fellowships are to increase the number of underrepresented minority students pursuing graduate degrees in engineering and science and to promote the benefits of a graduate degree within the industry.	Applicants must be U.S. citizens or U.S. permanent residents. Check the deadline for early consideration.	Anytime	GEM MS Engineering Fellows receive a \$4,000 living stipend per full-time semester up to 4 semesters (\$8K per academic year – 3 quarters), up to two paid summer internships with a GEM Employer Member, and full tuition and fees provided by a GEM University Member.	Fellowship	https://www.pro fellow.com/fellowship/gem-fellowship-ms-engineering-fellowship-program/
70	Georgia Sea Grant State Fellowship	The Georgia Sea Grant State Fellowship Program provides a unique educational and professional opportunity to eligible graduate students who are interested in coastal and marine resources in Georgia, and the policy and management decisions affecting those resources.	Applications may be submitted by a graduate student close to completing their degree (Masters, Ph.D., or J.D.), or within a year of their graduation, in a field related to conservation, management, protection, stewardship, public policy, or law of marine or coastal environments, or areas that impact marine and coastal environments. Applicants should address their degree of interest and experience in either marine/coastal/watershed science, natural resource management, public policy or law. Fellows must complete all degree requirements before starting the fellowship.	Sept. 30, 2021 by 5 p.m.	Sea Grant State Fellows receive a stipend of \$35,000 for 12-month assignments. Additional travel or professional development funding associated with the fellowship may be covered by the host agency at the agency's discretion.	Fellowship	https://gacoast.uga.edu/state-fellowship/
71	GFSD	This fellowship is through the NSF. It is a highly sought after fellowship. If you are a graduate student you can only apply once. Its advisable to do time your schooling, expertise, and funds in order to get the best chance.	any qualified U.S. citizen who has the ability to pursue graduate work at a GFSD university associate. UH Honolulu is on the list.	December 15th annually	20,000 a year for up to 6 years	Fellowship	https://stemfellowships.org/
72	Gloria Barron Wilderness Society Scholarship	The Gloria Barron Wilderness Society Scholarship seeks to encourage individuals who have the potential to make a significant positive difference in understanding wilderness and how to protect it. The scholarship is available to current qualified graduate students. It was created in honor of Gloria Barron, a dedicated educator and tireless advocate for wilderness protection.	Be currently enrolled in an accredited graduate institution in North America at the time of application; Have strong academic qualifications; Have academic and/or career goals focused on making a significant positive difference in the long-term protection of wilderness in the United States. Application required including Cover letter/proposal/CV/2 letters of recommendation/transcripts. The research paper should address an aspect of the establishment, protection or management of wilderness. The applicant may choose to discuss a subject relevant to current programs of The Wilderness Society or introduce a new topic. Proposed work may apply to a particular landscape or it may address issues broadly.	Yearly. Typically, applications are accepted from late January to mid-April. Selection committee reviews the applications and narrows the field to the top submissions. The Wilderness Society's Governing Council then reviews those applications and selects the recipient in mid-July.	The total amount of the scholarship, paid in two installments, is \$15,000. The first installment is paid after the winner is notified in mid-July, and the second is paid the following February. The recipient may be liable for income tax on the scholarship. Please consult with your tax advisor on the proper treatment of the award. Additional funding may be available to pay travel expenses for the recipient to work with staff members of The Wilderness Society on this project. TWS wishes to encourage the publication of this work in an academic journal or other appropriate medium and has additional funds to help cover expenses of publishing and publicizing the final paper.	Scholarship	https://www.wilderness.org/news/article/gloria-barron-wilderness-society-scholarship-how-apply#
73	Graduate Student Conservation Research Award	SCB allocates awards funding to support ten graduate student members whose research advances the science and practice of conserving biological diversity. The fellowship is designed to support graduate students who need assistance with costs toward field expenses in order to complete their degree. The SCB Global Awards Committee administers the Graduate Student Research Fellowship Awards and evaluates applicants on merit and with respect to geographic, topical, gender and other aspects of conservation diversity. Students must demonstrate financial need toward completion of graduate degree and graduate research must contribute to SCB's mission to advance the science and practice of conserving Earth's biodiversity.	Graduate students enrolled in an accredited University in the United States.	Currently closed. Opens: Feb. 1, 2022	\$1,000. Distributed by the UH Hilo Financial Aid Office.	This is a grant.	Society for Conservation Biology
74	Graduate Student Research Grant	The Geological Society of America seeks to provide funding to an individual in the field of geological sciences.	Individuals pursuing an earth science graduate degree program	February 2, 2022	\$2,500	Award	https://www.geosociety.org/GSA/grants/gradgrants.aspx
75	Hau'oli Mau Loa Foundation Graduate Fellowship	Three graduate assistantships for students dedicated to careers in conservation biology and environmental science in the state of Hawaii.	i) good academic standing (minimum GPA of 3.0 throughout the fellowship) ii) from Hawai'i, as evidenced by having graduated from a high school in Hawai'i iii) pursuing a M.S. degree in TCBEs iv) track record of supporting Hawai'i's environment (e.g., internships, volunteer opportunities) and serving in a v) leadership capacity or demonstrated leadership potential (academic, athletic, extracurricular, and/or professional) v) commitment to attaining and pursuing a long term career in conservation biology and environmental science in Hawai'i	Jan. 6, 2021	~\$18,924 a year, tuition remission \$1,500/month stipend \$5,000/year funding for professional development. Disbursed through UH HR as a state funded check	Graduate assistantship.	https://www.hauoli.mauiloa.org/
76	Hau'oli Mau Loa Foundation Fellowship	Funding for salary, tuition, and research	For graduate students at UHM or UHJ who graduated from a Hawai'i high school. Must maintain minimum 3.0 GPA and show a long-term commitment to conservation in Hawai'i.	Priority: Dec 1st, Final: Jan 6th	\$18,924 a year, tuition remission, and \$5,000 in attendance and research costs	Fellowship	http://www.hear.org/announcements/pdfs/20120412dnremfellowship.pdf
77	Hawai'i Audubon Society	Student grant for research in Hawaiian or Pacific natural history, with priority given to dryland forests or aeolian systems in Hawai'i.	Open to graduate and doctoral candidates. Submit application (shorter than 10 pgs) outlining project, methods, budget, CV, two letters of recommendation etc. Research must be in Hawai'i (see Description)	June 30	\$1,000	Grant	https://www.hawaiiaudubon.org/grants

78	Hawai'i Community Foundation Scholarship Common Application	The Hawai'i Community Foundation offers a broad range of scholarships and opportunities. To apply, you must fill out their common application. Their system will match you with scholarships that you are eligible for, based on your information. Scholarships support students who are pursuing degrees from colleges and universities, as well as those obtaining career and technical education at a community college. In 2020, the average scholarship award was over \$6,000 per student. Scholarships are available to all disciplines, undergraduate and graduate students.	Each scholarship has specific eligibility criteria defined by the donor when the fund is established. General criteria that apply to most scholarships include: Be a resident of the State of Hawai'i Demonstrate financial need Attend an accredited two or four year not for profit institution within the United States as either an undergraduate or graduate student Be a full-time student as determined by your institution Maintain a minimum 2.7 GPA (unless otherwise stated)	January 31 (repeats annually).	Variable, depending on opportunities that you match with based on your responses.	Scholarship	https://www.hawaiicomunityfoundation.org/grants-and-scholarships-for-community-causes-and-students
79	Hawaii Sea Grant Fellowship	The Hawai'i Sea Grant Graduate Fellowship Program provided skills training to graduate students preparing to become scientists and coastal and ocean resource managers through opportunities to engage in outreach, science communication, and informal education. The goal of this program is to develop well-rounded scientists versed not only in research but also outreach and science communication. Full-time graduate students working toward advanced degrees related to the marine or coastal sciences receive a paid graduate research assistantship position. Graduate fellows are expected to make good progress toward their degrees, remain in good academic standing, and participate in research that provides them with thesis and dissertation material. Additionally, graduate fellows conduct education and outreach activities to disseminate their work to a variety of stakeholders, including the general public, scientists, resource agencies, and other local decision-makers.	Graduate students enrolled in an accredited University in the United States. Focusing on marine and coastal research.	Opens: Jan. 15, 2022	\$35,000/year. Distributed through the foundation.	Fellowship	Hawaii Sea Grant
80	Herman's Garden Seed Donation Program	Each year, Seed Savers Exchange donates seeds to hundreds of organizations and gardens in need through its Herman's Garden Seed Donation Program. Groups that qualify for seed donations include: Community and educational groups who will freely share the harvest Community and educational groups who will save seed for others in need Non-profits, schools, community gardens, and educational programs	Community and educational groups, schools, and non-profits	Year-Round	Seeds, non-monetary	Grant	http://heea.org/resource/about.aspx?s=123095.0.0.89929
81	Hispanic Scholarship Fund	The HSF Scholarship is designed to assist students of Hispanic heritage obtain a college undergraduate or graduate degree	Applicants must be members of the Hispanic Scholarship Program. Eligible candidates: Graduating high school seniors Undergraduate students (all years) Community college students transferring to four-year universities Graduate students (law school, medical school, MBA, and all other full-time masters or PhD programs)	Mid-February	Awards are based on merit; amounts range from \$500 to \$5,000, based on relative need, among the Scholars selected.	Grant	https://www.hsf.net/scholarship
82	Ho'omau Foundation Scholarship	The Ho'omau Foundation Scholarship is meant to support Pacific Islander students/teachers who participates in or promotes some form of cultural engagement within their communities.	--Must be of Pacific Islander decent --Must be actively engaged with some form of Pacific Islander cultural perpetuation --Must be enrolled full-time in either a 2 year or 4-year university in the United States upon receipt of the funding --Must be a U.S. citizen and legally reside in the U.S. --A minimum GPA of 2.5 --Must submit an 800 word essay and 2 letters of recommendation --Must be willing to promote the Ho'omau Foundation's mission	April 16	Up to \$2,500	Scholarship	https://www.hoomaufoundation.org/home https://www.hoomaufoundation.org/apply
83	Ho'ona'auao Higher Education Scholarship Program	and allows access to mentoring and workshops	Must be Native Hawaiian and enrolled at any UH campus. Need to complete the FAFSA and one letter of recommendation as well as maintain a 3.0 GPA.	March 1	N/A	Scholarship	https://www.oha.org/scholarships/
84	HOLOHIL	Supports endangered species research and educational work. Grant aims to offer Holohil transmitters at a reduced (or no) cost to projects deserving of support.	The Holohil Grant Program is available to conservation professionals and researchers from anywhere in the world. All we ask in return is a short (approx. one-page) report/update with photos of your work using our transmitters which we can post on the Holohil Grant Recipients page. Application no more than 500 words.	4 quarters of applications and repeats each year. Application Deadlines: Jan 15th, April 15th, July 15th, and October 15th. Notification of award two months after application deadline.	Holohil will be supporting projects by donating up to CAD\$2,500.00 toward the purchase of Holohil transmitters. We will also pay all shipping charges (Note: importation duties and taxes are the receiver's responsibility).	Grant Program	https://www.holohil.com/grant-program/
85	J. Berman Memorial Grant for Sea Turtle Conservation	Funding to support a sea turtle conservation field work, not conservation research. A conservation plan should be clearly defined to detail the actual conservation activity and the anticipated outputs and outcomes. The applicant should clearly state to whom and how the results of the conservation activity will be communicated to resource managers or regulatory agencies.	Qualified woman of any age	October 31	\$2,000	Grant	https://www.wdhof.org/scholarship/j-berman-memorial-grant-for-sea-turtle-conservation
86	J. Philip Keillor Wisconsin Coastal Management-Sea Grant Fellow	The Wisconsin Sea Grant College Program and the Wisconsin Coastal Management Program seek postdoctoral and post-master's candidates interested in tackling science and policy challenges related to increasing coastal community resilience across the Great Lakes region, with a focus on Wisconsin and Minnesota's Lake Superior shoreline. Together, these programs will host this state Science-Policy Fellow position, named in honor of a longtime Sea Grant coastal engineering expert Phil Keillor, to celebrate his legacy in building resilience in Wisconsin communities. The Fellow will work closely with Wisconsin Coastal Management Program's staff, Sea Grant's climate and tourism outreach specialist, University of Wisconsin-Madison's Division of Extension staff, and coastal engineers, scientists, local government representatives, and researchers from a variety of fields to tackle the important challenge of connecting science related to coastal hazards with communities that benefit from the information.	Any student or postgraduate who will have graduated in the past five years with a degree in an applicable field (see above) is eligible to apply. Fellows must have completed all degree requirements before starting the fellowship.	17-Oct-21	Stipend and Expenses Annual stipends are dependent on the Fellow's academic background, with post master's Fellows earning \$40,000 and postdoctoral Fellows earning \$55,000, both with additional benefits (see - http://www.ohr.wisc.edu/benefits/new-emp/grad.aspx). Fellows will be allotted up to \$2,000 to cover fellowship-related travel and can include conferences. Additional travel associated with the fellowship may be covered by the host agency at the agency's discretion.	Fellowship	https://www.seagrant.wisc.edu/wp-content/uploads/2021/09/Wisconsin-Keillor-CHAOS-Fellowship-Announcement.pdf

97	Mark J. Glancey and John G. Gray LGBT Scholarship	This award is for any openly gay, lesbian, bisexual or transgender student who are U.S. citizens or permanent residents. Application requirements for the Mark J. Glancey and John G. Gray LGBT Scholarship are: -Essay -Application form	Any openly gay, lesbian, bisexual, or transgender student in the US.	One award offered annually, deadline is January 15.	small grant (\$1000)	Grant	https://www.unigo.com/scholarships/all/mark-j-glancey-and-john-g-gray-lgbt-scholarship
98	Marshall scholarship	In appointing Scholars the selectors will look for candidates who have the potential to excel as scholars, as leaders and as contributors to improved UK-US understanding. Assessment will be based on academic merit, leadership potential and ambassadorial potential.	Be citizens of the United States of America (at the time they apply for a scholarship); Must be a full time student	September 28th	The total value of a Marshall Scholarship varies according to the circumstances (place of residence, selected university, etc.) of each Scholar but the figure tends on average to be about £38,000 a year.	Scholarship	http://www.marshallscholarship.org/apply/criteria-and-who-is-eligible
99	Mohamed bin Zayed Species Conservation Fund	The Fund has been established to provide targeted grants to individual species conservation initiatives, recognize leaders in the field and elevate the importance of species in the broader conservation debate. Its focus is global and eligibility for grants will extend to all plant, animal and fungi species conservation efforts, without discrimination on the basis of region or selected species. However, it is very competitive indeed with only around 12% of applicants in 2019 receiving a grant.	Anyone directly involved in species conservation can apply to the Fund for a grant.	The Fund will receive and consider applications at any time, but please note that applications will be reviewed at regular review panel and board meetings. For more information on the timetable for the submission of applications, please refer to the applications timetable page. Please ensure that you submit your application in good time as the Fund cannot be held responsible for applications which are received after the deadline. Applications which are received late will automatically be reviewed in the following round.	The Fund will provide grants up to a maximum of \$25,000 per project.	Grant	https://www.speciesconservation.org/grants/
100	Nā Ho'okama a Pauahi		--Must be an undergraduate or graduate student who demonstrates financial need --Must be a Hawaii island resident --Must be a full time student	January 28, 2022	\$8,000	Scholarship	
101	Na Hookama A Pauahi Scholarship	A scholarship to nurture the dreams of Native Hawaiian learners to grow as 'ōiwi leaders.	Students currently enrolled in an accredited University or College. Kamehameha Schools' admissions policy is to give preference to applicants of Hawaiian ancestry to the extent permitted by law. The scholarship is available to undergraduate and graduate students enrolled in a two or four year accredited university or community college. FAlthough applicants are encouraged to study study in the Hawaiian Islands, funding is available to students studying outside of the state.	Jan. 28, 2022	Undergraduate Community College- up to \$750/semester. Undergraduate University- up to \$2,500 /semester. Graduate University- up to \$3,500 /semester.	This is a scholarship.	KSBE.edu https://www.ksbe.edu/apply/financial_aid/college_scholarships/ks_college_scholarships/award-opportunities
102	National Fish & Wildlife Foundation: Hawaii Conservation Program	Grant awarding organizations actively working to reduce native forest bird extinction risk and cultivate healthy coral reefs in Maui Nui, funding the cost of implementing these projects. Work must be conducted in eligible coral reef or bird habitats on Hawai'i Island, Maui, Lanai, Molokai, O'ahu, or Kaua'i	Educational institutions, government agencies, or non-profits conducting research directly meeting program goals. A graduate student working in one of these agencies could get their conservation research funded by extension.	10/25/2021 for 2022. Also held last year.	Between \$50,000 and \$200,000 distributed to educational institution, government agency, or non-profit	Grant	Hawaii Conservation Program 2022 Request for Proposals I.NEWF https://www.nfwf.org/programs/hawaii-conservation-program/hawaii-conservation-program-2022-request-proposals
103	National Gardens Club	NGC is proud of its college scholarship program which offers financial aid to students majoring in fields of study related to horticulture and the environment	Must be a US Citizen or Permanent Legal Resident of the United States. International or Foreign Exchange Students are not eligible. Doctoral program students are not eligible. Must be attending school full-time as defined by NGC; Graduate students must be enrolled for a minimum of 9 graded hours of classes; Must have a cumulative GPA of at least 3.25 (on a 4.0 scale). Must be planning a career related to gardening, landscape design, environmental issues, floral design or horticulture.	2/1/2021 Annual	\$4,000	Scholarship	https://gardenclub.org/college-scholarships/#collapseProgramGuidelines1
104	National Geographic Early Career Scholarship	Designed to offer individuals with less than five years of experience with an opportunity to lead a project for one year or less	Early career conservationist/scientist at any institution	end of April (annually)	\$5k-\$10k	Scholarship	https://www.nationalgeographic.org/funding-opportunities/grants/
105	NATIONAL PRIORITIES: WATER INNOVATION, SCIENCE, AND ENGAGEMENT TO ADVANCE WATER REUSE	The U.S. Environmental Protection Agency (EPA), is seeking applications proposing to accelerate water innovation, information availability, and engagement to advance clean and safe water reuse goals, promote better understanding of the Nation's water and wastewater treatment and infrastructure, and enhance the availability and efficient use of water resources through water reuse. This request for applications (RFA) is intended to address multiple water reuse projects.	Public and private nonprofit institutions and public and private universities and colleges located in the United States and its territories or possessions are eligible. Foreign entities, States, the District of Columbia, State and local government departments, territories, possessions, and Federally Recognized Indian Tribal Governments of the U.S., are not eligible to apply under this RFA.	September 29, 2021: 11:59:59 pm Eastern Time	Approximately \$6,492,000 total in federal funds for all awards. Potential Federal Funding per Award: Up to a total of \$3,246,000 in federal funds, including direct and indirect costs, with a maximum duration of 4 years. Each applicant must contribute 25% non-federal cost.	Cooperative Agreement	https://www.epa.gov/system/files/documents/2021-07/ry21-national-priorities-reuse-cooperative-agreement-rfa-final.pdf
106	Native Agriculture and Food Systems Scholarship	The Native Agriculture and Food Systems Scholarship program encourages more Native American, Alaska Native, and Native Hawaiian college students to enter agriculture and food systems fields so that they can better assist their communities with their food systems efforts.	- Applicants must be full-time undergraduate or graduate students majoring in an agricultural-related field, or be able to demonstrate how their degree program relates to Native food systems. - Applicants must be tribally-affiliated and able to provide documentation. - Applicants must have at least a 2.75 GPA. - Applicants must demonstrate a commitment to helping their community reclaim local food system control.	September 30, 2021	The foundation will award 20-25 grants ranging between \$1000-\$1500	Grants	https://www.firstnations.org/rfps/native-agriculture-and-food-systems-scholarship/
107	NOAA Coastal Management Fellowships	The Coastal Management and Digital Coast Fellowship provides on-the-job education and training opportunities in coastal resource management and policy for post-graduate students. As a fellow in this position you will also provide project assistance to state coastal zone management programs. The program matches post-graduate students with state coastal zone programs to work on projects proposed by the state and selected by the fellowship sponsor, the National Oceanic and Atmospheric Administration Coastal Services Center.	This two-year opportunity offers a competitive salary, medical benefits, and travel and relocation expense reimbursement. If you are a student who will complete a master's or other advanced degree in natural resource management or environmental-related studies at an accredited U.S. university in the year prior to applying, you are eligible. Students from a broad range of environmental programs are encouraged to apply; however, students from non-U.S. institutions are not eligible.	The next deadline for this fellowship is expected to be in January 2022 and will be announced Fall 2021.	https://seagrant.oregonstate.edu/fellowships/noaa-coastal-management-digital-coast-fellowships	Fellowship	

108	NOAA Coral Reef Management Fellowships	The National Coral Reef Management Fellowship Program is a partnership between Nova Southeastern University's National Coral Reef Institute, NOAA's Coral Reef Conservation Program, the U.S. Department of Interior Office of Insular Affairs, and the U.S. Coral Reef All Islands Committee. The program recruits Coral Reef Management Fellows for the seven U.S. coral reef jurisdictions (American Samoa, the Commonwealth of the Northern Mariana Islands, Florida, Guam, Hawaii, Puerto Rico, and the U.S. Virgin Islands) to address current capacity gaps and to build longer-term capacity in these locations. This is done by placing highly qualified individuals whose education and work experience meet each jurisdiction's specific coral reef management needs. The program's goal is to develop a thriving collaborative fellowship program that builds excellent next-generation leaders and capacity for effective local coral reef ecosystem management.	Applicants must be a U.S. citizen or permanent resident. Applicants typically have a master's degree and two years of work experience OR a bachelor's degree and four years of experience. Applicants with a doctorate or law degree are also eligible to apply. Previous experience in participating jurisdictions is desired, but not required. Jurisdictions may require additional or alternate skills, such as a social science background with human dimensions of natural resource management, outreach and education and/or social marketing. Jurisdictions may set other specific eligibility requirements which are provided during the recruitment process. Applicants may apply for more than one jurisdictional position, but a separate application must be submitted for each position.	The next deadline for this fellowship is expected to be in January 2023	Fellows receive a non-negotiable annual salary that varies depending on location. Fellows receive a benefits package that includes paid local and federal government holidays, leave, and medical benefits. Funding is also provided to support professional development activities relevant to the fellowship.	Fellowship	https://coralreef.noaa.gov/education/fellowship.html
109	NSF National Institute of Food and Agriculture Plant Biotic Interactions Program	General research funds for research on interactions between plants and symbionts, pathogens, and pests	1862 Land-Grant Institutions, 1890 Land-Grant Institutions, 1994 Land-Grant Institutions, For-profit Organizations, Hispanic-Serving Institutions, Individuals, Native American Tribal Orgs, not Federally recognized Tribal Governments, Nonprofits with 501(c)(3) IRS status, Nonprofits without 501(c)(3) IRS status, Private Institutions of Higher Ed, Small Business, State Agricultural Experiment Stations, State Controlled Institutions of Higher Ed	September 30, 2022	\$8,000,000 total	Grant	https://nifa.usda.gov/funding-opportunity/nsf-nifa-plant-biotic-interactions-program-pbi
110	NSF Graduate Research Fellowship Program	The NSF GRFP recognizes and supports outstanding graduate students in NSF-supported STEM disciplines who are pursuing research-based master's and doctoral degrees at accredited US institutions. The funding is for research based Masters of PHD programs in the GRFP -supported fields. This fellowship is through the NSF. It is a highly sought after fellowship. If you are a graduate student you can only apply once. Its advisable to do time your schooling, expertise, and funds in order to get the best chance.	Be a U.S. citizen, national, or permanent resident Intend to enroll or be enrolled in a research-based master's or doctoral degree program in an eligible Field of Study in STEM or STEM education Have never previously accepted a Graduate Research Fellowship If previously offered a Graduate Research Fellowship, have declined by the acceptance deadline Have never previously applied to GRFP while enrolled in a graduate degree program Have never earned a doctoral or terminal degree in any field Have never earned a master's or professional degree in any field, or completed more than one academic year in a graduate degree-granting program, unless (i) returning to graduate study after an interruption of two or more consecutive years immediately preceding the application deadline, and; (ii) not enrolled in a graduate degree program at the application deadline Not be a current NSF employee	Deadline dependent upon field of study but between October 18 – 29. This is an annual completion.	The five-year fellowship includes three years of financial support including an annual stipend of \$34,000 and a cost of education allowance of \$12,000 to the institution.	Fellowship	https://www.nsfgrfp.org/ https://beta.nsf.gov/funding/opportunities/nsf-graduate-research-fellowship-program-grfp Dear Colleague Letter - NSF Graduate Research Fellowship Program (GRFP) - Graduate Research Internship Program (GRIP) (nsf18069) NSF - National Science Foundation
111	NSF Graduate Research Fellowship Program (GRFP) - Graduate Research Internship Program (GRIP)	Professional development through internships developed in partnership with federal agencies. Fellows participate in mission-related, collaborative research under the guidance of host research mentors at federal facilities and national laboratories.	Open to active Fellows who have completed at least one year of their graduate program at the time of application and will retain their active status for at least 12 months following the application submission deadline. They must be certified by the GRFP Institution to be making satisfactory progress towards their degrees, and have fulfilled all GRFP reporting requirements. For some agencies, Fellows must be U.S. citizens.	GRIP applications are due December 4 and May 6.	Internship allowance of \$5,000 through their GRFP institution to cover travel and research costs associated with the GRIP internship project	Fellowship	https://nsf.gov/pubs/2018/nsf18069/nsf18069.jsp
112	NSF Non-Academic Research Internships for Graduate Students (INTERN) Supplemental Funding Opportunity	Fostering the growth of a globally competitive and diverse research workforce and advancing the scientific and innovation skills of the Nation is a strategic objective of the National Science Foundation (NSF). The Nation's global competitiveness depends critically on the readiness of the Nation's Science, Technology, Engineering and Mathematics (STEM) workforce and NSF seeks to continue to invest in programs that directly advance this workforce. As part of this effort, a supplemental funding opportunity is available in fiscal year FY 2020 to provide support for non-academic research internships for graduate students to support career opportunities in any sector of the U.S. economy	graduate students must have completed at least one academic year in their graduate programs (master's or doctoral) and be making satisfactory progress towards the completion of their degrees.	June 8th	The total amount of funding requested must not exceed \$55,000 per student per six-month period.	Stipend	https://www.nsf.gov/pubs/2018/nsf18102/nsf18102.pdf
113	NSF Ocean Technology and Interdisciplinary Coordination (OTIC) Program	The (OTIC) Program supports a broad range of research and technology development activities. Unsolicited proposals are accepted for instrumentation development that has broad applicability to ocean science research projects and that enhance observational, experimental or analytical capabilities of the ocean science research community.	Academic / Research U.S. institutions, including universities and two- and four-year colleges (including community colleges) accredited in, and having a campus located in the United States, acting on behalf of their faculty members;	Feb. 15th, 2022	TBD based on project	Standard Grant (by NSF definition)	https://beta.nsf.gov/funding/opportunities/ocean-technology-and-interdisciplinary-coordination
114	NSF: Division of Environmental Biology (DEB)	General research funds for anyone conducting research on evolutionary and ecological processes, particularly studies that take an interdisciplinary approach	Must be associated with an institution of higher education in the US or an international branch of a US institution, or a non-profit institution in the US	Proposals accepted year-round	\$100 million allocated among about 120 new awards	Grant	https://beta.nsf.gov/funding/opportunities/division-environmental-biology-deb
115	Ocean Wishes Basic Dive Training Grant	Up to ten basic dive training grants offered for those who wish to begin their dive training. The grants include funding for dive training and up to \$500 for dive gear. Dive training must culminate in a certification from a nationally recognized diver-training agency.	A woman of any age and background who wishes to begin her dive training through a PADI scuba certification course	October 31	\$1,000 for PADI Scuba Certification Course	Grant	https://www.wdhof.org/scholarship/basic-dive-training-grants
116	Our World-Underwater Scholarship Society National Park Service (NPS) Research Internship	Opportunity to work with leading archaeologists, underwater photographers, and scientists in the National Park Service and other agencies in the American state and federal government. Specific work projects will be determined based upon interests of the intern as well as the needs of associated projects. Typical projects may include underwater archaeology or filming/photography work with the Submerged Resources Center; biological assessments of coral reefs or kelp forests in places like Dry Tortugas National Park or Channel Islands; assistance with training at national training seminars for NPS divers; interpretation and outreach/education with parks like Biscayne National Park; or public safety diving with our law enforcement rangers at numerous parks throughout the system.	Current or recently graduated student. Scuba certification required, with at least advanced open water certification; minimum of 50 logged dives and current dive physical. US Citizenship Preferred; applicant must be between 20-28 at the start of the internship	January 15 (annually)	Stipend and necessary dive equipment provided	Fellowship	https://www.owus.com/scholarship-society-national-park-service-research-internship

117	Out to Innovate Scholarship	Award scholarships from Out to Innovate for LGBTQ+ students currently enrolled in STEM and is meant to encourage students to be out in their careers and support diversity in the STEM workforce	Applicant must have 2 years at a University, be studing STEM, identify as LGBTQ+, and actively participate in LGBTQ+ organizations.	April 1 - June 4 2021	\$5,000	Scholarship	https://www.noglstip.org/programs-projects/scholarships/
118	Out To Innovate Scholarships for LGBTQ+STEM Students	NOGLSTIP established the Out To Innovate Scholarships for LGBTQ+STEM students which are intended for undergraduate and graduate students pursuing degrees in science, technology, engineering, or mathematics (STEM) programs	One scholarship will go to an undergraduate student, and one will go to a graduate/professional level student. Applicants must have successfully completed a minimum of two years of post-high school education at an accredited college or university, have a minimum 3.0 GPA, a declared major in an accredited STEM or STEM-related teaching field and be an active supporter of and participant in programs or organizations that promote LGBTQ inclusion and visibility.	July 06, 2022	\$5,000	Scholarship	https://www.noglstip.org/scholarship-brochure.pdf
119	Partners for Fish and Wildlife	Voluntary, incentive-based program that provides direct technical assistance and financial assistance in the form of cooperative and grant agreements to private landowners to restore and conserve fish and wildlife habitat for the benefit of federal trust resources.	Independent school districts Unrestricted County governments Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education State governments Individuals Public and State controlled institutions of higher education Native American tribal governments (Federally recognized) Special district governments Native American tribal organizations (other than Federally recognized tribal governments) Private institutions of higher education Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education Others (see text field entitled "Additional Information on Eligibility" for clarification) Small businesses Public housing authorities/Indian housing authorities City or township governments For profit organizations other than small businesses	Sep 30, 2021 Applications are accepted on a rolling basis between October 1, 2020 and September 30, 2021.	Estimated Total Program Funding: \$57,000,000 Award Ceiling:\$750,000 Award Floor:\$1	Cooperative Agreement Grant	Search Grants GRANTS.GOV https://www.grants.gov/web/grants/search-grants.html
120	Pauahi Foundation Scholarships	This is a scholarship program for classified, degree-seeking students attending a two- or four-year accredited institution* in the state of Hawaii or the mainland United States that is recognized by KS. Attending a two- or four-year accredited institution* in the state of Hawaii or the mainland United States that is recognized by KS. A full-time undergraduate or graduate student, as defined by their degree program. Half-time undergraduate or graduate students may be considered per individual scholarship requirements. Applicants are accepted for all subject areas and Kamehameha Schools' admissions policy is to give preference to applicants of Hawaiian ancestry to the extent permitted by law.	Students currently enrolled in an accredited University or College. Kamehameha Schools' admissions policy is to give preference to applicants of Hawaiian ancestry to the extent permitted by law.	Opens: Nov. 8, 2021 Closes: Dec. 23, 2021	Dependant upon scholarships available and eligible for. Distributed by the UH Hilo Financial Aid Office	This is a scholarship program.	Pauahi Foundation
121	Peter J. Rappa Sustainable Coastal Development Fellowship	The fellowship was created in honor of Peter J. Rappa. There are three projects you could work on. 1)Preparing County of Kauai'i for flooding and ensuring community resilience. 2) developing a Public Engagement Strategy for the Hawai'i Sea Grant streamside Guide. 3)Prepare Hawai'i for transition to Renewable Energy Sources.	All full-time graduate students currently enrolled in an accredited university college are eligible to apply.	Friday, March 12	6000	Stipend	https://seagrant.soest.hawaii.edu/about/opportunities/
122	PixelPlex Bi-Annual STEM Scholarship	To help support and inspire students to pursue further education in the fields of science, technology, engineering and math (STEM), as well as economics and business.	Must be a student	Dec. 5th, 2021	\$2000 for education-related expenses	Scholarship	https://pixelplex.io/scholarship/
123	Quadratrec Energize the Environment Grant	Examples of Eligible Programs Trail building or restoration projects Park beautification events Litter prevention initiatives Earth study missions Sustainable land management activities Community environmental educational projects Youth educational engagement events	Individuals or groups currently pursuing a program or initiative designed to benefit the environment are invited to apply for a \$3,500 grant from Quadratrec.	June 30 and October 30.	\$3,500	Grant	http://heea.org/resource/about.aspx?s=129721.0.0.89929
124	R&D Systems Scholarship Program	Funding can be used at the recipients discretion to pay for projects, and fees related to pursuing graduate studies or research; scholarship is open to graduate level science based programs.	Applicants must be currently enrolled or plan to be enrolled in a science related degree program. Scholarship is open to undergraduate and graduate level science related programs and all science related majors are eligible (biology, chemistry, social sciences, environmental sciences, engineering, etc.).	July 20, 2022	\$1,500.00	Scholarship	https://www.collegeexpress.com/scholarships/rd-systems-scholarship-program/5005646/
125	Raptor Research Foundation- The Dean Amadon Grant (8 total grants listed on website)	The Dean Amadon Grant is designed to assist persons working in the area of distribution and systematics (taxonomy) of raptors. Systematics covers a wide array of interests from molecular work to differential migration of populations from various geographic regions, for example. Distribution also covers a wide array of interests but should have something to do with where raptors live or why they are there.	Must submit a cover letter, CV, proposal (less than 4pgs) outlining the objective of the study, method, budget, and list of other funding sources	opens in January and closes June 30th (repeats yearly)	up to \$2000	Grant	https://www.raptorresearchfoundation.org/grants-and-awards/
126	Recovery of Species on the Brink of Extinction	Proposals are sought from around the world that will implement IUCN SSC Species Action Plans as well as conservation actions that are endorsed by the relevant IUCN SSC Species Specialist Group.	Open	April	Typical proposal requests should be less than \$30,000; however, applicants may request up to \$50,000.	Scholarship	https://www.conservation-careers.com/top-conservation-scholarships/#recovery
127	REEF Marine Conservation Internship	Support REEF's educational programming and general operations from the REEF Campus in Key Largo, Florida. With an Interpretive Center and nature trails it serves as an educational center for visitors and groups. It is also the Headquarters for supporting a membership of over 70,000 individuals engaging in REEF's international programs.	Currently enrolled or recently graduated graduate students. Preference given to students from a traditionally underserved population in education including first-generation, low-income, and minority students, or those with other extenuating circumstances.	January 15 (annually)	\$250/week	Fellowship	https://www.reef.org/reef-marine-conservation-internship-funding-opportunities

128	Robert Noyce Teacher Scholarship Program	The National Science Foundation Robert Noyce Teacher Scholarship Program (Noyce) invites innovative proposals that address the critical need for recruiting, preparing, and retaining highly effective elementary and secondary mathematics and science teachers and teacher leaders in high-need school districts. To achieve this goal, Noyce supports talented science, technology, engineering, and mathematics (STEM) undergraduate majors and professionals to become effective K-12 STEM teachers. It also supports experienced, exemplary K-12 STEM teachers to become teacher leaders in high-need school districts.	STEM undergraduate majors and professionals (which I believe masters students fall under)	August 30th	Track 1: Scholarships and Stipends. Up to \$1,200,000 with a duration of up to 5 years.	Scholarship	https://beta.nsf.gov/funding/opportunities/robert-noyce-teacher-scholarship-program
129	Roger Williams Park Zoo- Sophie Danforth Conservatoin Biology Fund	The Sophie Danforth Conservation Biology Fund makes grants to protect threatened wildlife and habitats worldwide. Priority is for projects that demonstrate a multi-disciplinary approach to ecosystem conservation, and that involve in-country collaborators. Projects must directly affect biological conservation.	Applicants can be of any nationality but must be associated with an organization (non-profit, university, etc.)	June 1st, 2021	up to \$1000	Grant	https://terravivagrants.org/conservation-biology-fund/
130	Rosemary & Nellie Ebrine Fund	The scholarship was established to provide financial assistance to students in Hawaii who are seeking a college education at an accredited, two or four-year, not-for-profit institution within the US. It was created to honor Rosemary and her mother Nellie Ebrine.	--Must be an Undergraduate or Graduate student--Must have a GPA of 2.70 or higher--Must demonstrate financial need--Must be a full-time student--Must be a long time resident born and currently living on the island of Hawaii--Must attend two or four-year institution within the US--Must be of Hawaiian ancestry	January 31	Varies	Scholarship	https://hcf.scholarships.ngwebsolutions.com/scholarx_scholarshipsearch.aspx
131	Salomon Bartnicki-Garcia Award	This award is meant to honor Dr. Salomon Bartnicki-Garcia for his contributions to fungal cell biology.	Graduate student who is a current member of the Mycological Society of America	February 15th before midnight, Pacific Time	\$500	Grant	https://msafungi.org/salomon-bartnicki-garcia-award/
132	SCB Graduate Student Research Fellowship Awards	Graduate Student Research Fellowship Awards will support field work, including travel, materials or equipment required to conduct research by graduate student members of SCB.	Students must demonstrate financial need toward completion of graduate degree and graduate research must contribute to SCB's mission to advance the science and practice of conserving Earth's biodiversity.	April 15, 2021	\$1,000.00	Fellowship	https://conbio.org/professional-development/service-awards/graduate-student-research-fellowship-awards
133	Scientists in Parks Program	The Scientist in Parks Programs seeks motivated applicants to complete numerous exciting projects in America's national parks.	Open to undergraduate and graduate students	June 1st	Stipend: \$400-\$500 per week and free housing for the duration of the project.	Paid Internship	https://www.nps.gov/subjects/science/why-should-i-apply.htm
134	Second Century Stewardship: Science for America's National Parks 2022 Research Fellowship	Salary to conduct research for the National Parks Service to improve natural and cultural resource management and engage the public	US residents at least 18 years old; early-career scientists, assistant professor, postdoctoral research and graduate students encouraged to apply	October 28, 2021	\$20,000	Fellowship	https://www.scsparkecience.org/request-for-proposals/
135	Sigma Xi Grants in Aid of Research (GIAR)	The Sigma Xi Grants in Aid of Research (GIAR) program has provided undergraduate and graduate students with valuable educational experiences since 1922. By encouraging close working relationships between students and mentors, the program promotes scientific excellence and achievement through hands-on learning.	Open to graduate students from all areas of the sciences and engineering. Membership in Sigma Xi is not a requirement, but approximately 75% of the funds are restricted for use of Sigma Xi students. The National Academy of Sciences funds certain grants for astronomy research and for vision related research.	10-01-2021 / 03-15-2022	Up to \$1,000	Fellowship/Grant	https://www.sigmaxi.org/programs/grants-in-aid
136	Smith Fellows: David H. Smith Conservation Research Fellowship	The David H. Smith Conservation Research Fellowship Program seeks to develop future world leaders and entrepreneurs who are successful at linking conservation science and application. Smith Fellowships provide two years of postdoctoral support to outstanding early-career scientists.	These Fellowships provide support for outstanding early-career scientists from around the globe based at a United States institution to improve and expand their research skills while directing their efforts towards problems of pressing conservation concern for the United States. Individuals who want to better link conservation science and theory with policy and management are encouraged to apply.	Sept 24	Each Fellow will receive an annual salary of \$60,500 plus benefits, with the post-doctoral position expected to run for two consecutive years. In addition to the stipend, each Fellow receives a travel budget of \$8,000 and a research fund of \$32,000 over the 2-year fellowship period.	Fellowship	https://conbio.org/mini-sites/smith-fellows/apply/proposal-guidelines
137	Smithsonian Insittution Graduate Fellowship	Funding for students to conduct research for 10 weeks with the Smithsonian Environmental Research Center. The Smithsonian Institution Fellowship Program offers opportunities for independent research or study related to Smithsonian collections, facilities, and/or research interests of the Institution and its staff. Fellowships are offered to graduate students, predoctoral students, and postdoctoral and senior researchers to conduct independent research and to utilize the resources of the Institution with members of the Smithsonian professional research staff serving as advisors and hosts. These fellowships are offered through the Smithsonian's Office of Fellowships and Internships, and are administered under the charter of the Institution, 20 U.S. Code section 41 et seq. The Smithsonian Institution Fellowship Program offers fellowships for research and study in the following fields and encourages applications of an interdisciplinary nature: Animal behavior, ecology, and environmental science, including an emphasis on the tropics; Anthropology, including archaeology, cultural anthropology, linguistics, and physical anthropology; Astrophysics and astronomy; Earth sciences and paleobiology; Evolutionary & systematic biology; Folklife; History of science and technology; History of art, especially American, contemporary, African, and Asian art, twentieth-century American crafts, and decorative arts; Materials research; Molecular biology; Social and cultural history of the United States	Ten-Week Graduate Student Fellowships – for graduate students to conduct independent research usually before having been advanced to candidacy if in a Ph.D. program. When they apply, students must be formally enrolled in a graduate program of study at a degree-granting institution and must have completed at least one full-time semester or its equivalent.	Nov 1, 2021 (repeats yearly)	8,000	Fellowship	https://fellowships.si.edu/opportunity/smithsonian-institution-fellowship-program-sifp https://serc.si.edu/fellowships

138	Society for Conservation Biology Marine Section Conservation Research Small Grants Program	To advance the conservation of marine biodiversity and the communities which depend on healthy marine systems by providing funds to individuals or groups for research, conservation, and restoration activities in support of the section's Mission.	Applicants must be members of the Society for Conservation Biology's Marine Section. Applicants must be conducting conservation efforts in developing countries. Eligible activities: Providing materials to train local residents to reduce impacts of human activities on marine organisms and their habitats; Developing educational materials for implementing conservation practices, such as teaching fishers to reduce bycatch; Surveys of previously unsurveyed areas to evaluate status and conservation of marine organisms or habitats; Travel to and from research sites; Participant travel to focus groups/workshops; Research equipment and supplies (e.g. dive equipment, sampling supplies, photographic equipment); Other direct costs (e.g., boat fuel). Non-eligible activities: Travel to the ICCBs, IMCCs, or other meetings; Personal expenses such as food, lodging, or professional membership fees; Researcher salaries; Tuition or course fees; Indirect/Overhead/F&A.	Applications will be accepted in 2021 between 1 August and 30 September. Awards will be reviewed through the end of October, and awards announced no later than 15 November. (Repeats yearly although not explicitly stated on website)	Grants range from \$750-1,000 USD.	Grant	https://conbio.org/groups/sections/marine/small-grants
139	Summer Great Lakes Summer Fellows Program	The Cooperative Institute for Great Lakes Research (CIGLR) announces the 2021 Great Lakes Summer Fellows Program, in partnership with the National Oceanic and Atmospheric Administration (NOAA) Great Lakes Environmental Research Lab (GLERL). The Great Lakes Summer Fellows Program exposes students to a broad range of disciplines and provides an exciting opportunity for students to conduct research in the Great Lakes region under the mentorship of a CIGLR or GLERL scientist. We seek to use these fellowships to increase diversity in STEM disciplines (science, technology, engineering and math) and strongly encourage applications from students who identify with groups that have been traditionally underrepresented in government and academic workforces.	The program is limited to currently-enrolled undergraduate (juniors and seniors as of Fall 2021) and graduate students (Master's and Ph.D). We will also consider post-baccalaureate or post-masters students who have graduated within the past 12 months of the fellowship (i.e., May 2020 or after), if the position fits directly within a student's career or academic goals. You must be either a U.S. citizen or a foreign national who is residing in the U.S. on a current Student Visa. Immediate relatives of any CIGLR or NOAA GLERL employees are not eligible to participate in this program, consistent with NOAA guidelines.	apply for the 2022 program in January 2022	Each student will receive a \$10,000 stipend, paid in four monthly installments of \$2,500.	Fellowship	https://ciglr.seas.umich.edu/2021-great-lakes-summer-student-fellows-program-application-information/
140	Susan Williams Memorial Fellowships in Coral and Seagrass Rehabilitation	The fellowships are intended to support marine fieldwork and data collection in conjunction with marine habitat rehabilitation projects. The applicant should clearly state how the intended use of the fellowship will advance the conservation, protection, and/or rehabilitation of coral reefs or seagrass habitats. The fellowships are not intended to support tuition, living expenses or student loan payments. There is no requirement that the recipient be associated with a university.	qualified women applicants of any age. Cumulative GPA of 3.0 or higher on a 4.0 scale (or equivalent on a 5.0 scale)	10/31/2021; Annual	\$2,500	Fellowship	https://www.wdhof.org/scholarship/susan-l-williams-memorial-fellowships-in-coral-and-seagrass-rehabilitation
141	Terrestrial Wildlife Conservation Graduate Scholarship	The TCBS MS program offers this scholarship to students dedicated to careers in terrestrial wildlife conservation and habitat management. Each scholarship provides funds (\$15,000/y) that may be used for costs associated with attendance (e.g., tuition, books, and/or fees) and/or funding for research supplies, travel, etc. Recipients may receive the award for a maximum of two years.	The following eligibility criteria apply: (i) good academic standing (minimum GPA of 3.0 before and throughout the scholarship); (ii) pursuing a M.S. degree in TCBS.	January 6 (repeats annually).	\$15,000	Scholarship	https://tcbes.uh.hawaii.edu/funding_opportunities#hau
142	The Eugene Maughan Graduate Student Scholarship	Scholarship supports master's students in the general areas of fisheries science with one to three awards to individual students.	-Excellent scholarship as evidenced by grades in rigorous course work during the last 60 hours as an undergraduate and during graduate studies. -Potential for future contributions to the fisheries profession through management, research, or teaching. -Significant progress toward attaining a graduate degree in fisheries science with a defined thesis or dissertation project.	Applications open in January and are due each April 15th. The winner will be announced on May 15th. (Seems to repeat yearly although not explicitly noted on website)	Up to \$5000	Scholarship	https://wdafs.org/students/scholarship-travel-award-information/
143	The Exploration Fund Grant	The Explorers Club is proud of its history and also looks toward the future by recognizing the importance of new ideas and avenues of exploration. The Club is deeply committed to supporting the fieldwork of serious researchers and, as part of its public service commitment, offers exploration grants in the following categories.	Graduate Students and Immediate Post-Doc: This category of grant supports exploration and field research for those who are just beginning their research careers.	Accepting applications on Jun 9 2021 12: 01 AM (EDT)	Awards are approximately \$2,500 to \$5000	Grant	http://grants.explorers.org/prog/exploration_fund_grant/
144	The Explorers Club	-This category of grant supports exploration and field research for those who are just beginning their research careers. One page description of your project with attention to scientific objectives. • Description of qualifications of your project associates and the specific sites of your proposed research. • One paragraph description of your career objectives and aspirations and how this project fits into that plan. • Letter of recommendation from your supervisor • Copy of a current student ID. • Budget outline. • Education and outreach plan. • Media production plan	Graduate students with a fieldwork component to their research.	December 4, 2021	\$2,500-\$5,000	Grant	https://explorers.org/expeditions/funding/expedition_grants
145	The Frances M. Peacock Scholarship for Native Bird Habitat	The Frances M. Peacock Scholarship for Native Bird Habitat provides financial aid to study areas in the United States that provide seasonal habitat for threatened or endangered native birds and to tend useful information for land-management decisions.	Open to college seniors and graduate students only (second-semester juniors may apply for their senior year). Eligibility is open to U.S. Citizens and permanent residents who are enrolled in a U. S. - based institution.	The Application deadline is January 15 preceding the proposed period of study. Awardees will be notified no later than March 31.	\$4,500	Scholarship	https://www.gcamerica.org/scholarships/details/frances-m-peacock-scholarship-for-native-bird-habitat

146	The Garden Club of America	For the 2022-2023 competition, the Fulbright-National Geographic Storytelling Fellowship will accept proposals to undertake an in-depth examination of a globally relevant issue as an enhancement to their Fulbright research or arts project. The National Geographic Society's focus areas are: Oceans, Land, Wildlife, Human History & Cultures, and Human Ingenuity. Storytellers may use a variety of storytelling tools—including, but not limited to writing, photography, video, audio/podcasts, maps, or graphic illustrations to share their stories.	Candidates from all fields are encouraged to apply.	January 15th	\$5,000	Scholarship	https://www.gcamerica.org/scholarships/details/gca-award-in-coastal-wetlands-studies
147	The Garden Club of America Fellowship in Ecological Restoration	Purpose: To support specialized graduate study and research in ecological restoration, the "active healing of the land." Ecological Restoration is further defined as "the process of assisting the recovery and management of ecological integrity. Ecological integrity includes a critical range of variability in biodiversity, ecological processes and structures, regional and historical context, and sustainable cultural practices." The goal of this fellowship is to support research that will advance knowledge and increase the numbers of scientists in this important field.	Open to graduate students. Fields of study of past recipients have ranged from forestry to applied plant sciences to ecology and evolutionary biology. Eligibility is open to U.S. Citizens and permanent residents who are enrolled in a U.S. - based institution.	Applications must be received by December 31 of the year preceding study.	Provides an annual grant for \$8000 for study and research at a leading accredited university in the United States.	Fellowship	https://www.publicgardens.org/about-us/awards-and-scholarships/scholarship-opportunities https://www.gcamerica.org/scholarships/details/gca-fellowship-in-ecological-restoration
148	The Nature Conservancy: Nature Net Science Fellows Program	The Nature Net Science Fellowship awards 2-years fellowships to promising early career scientists. Each fellow is jointly mentored by a Nature Conservancy field practitioner and a senior scholar from a university or accredited research institution on a project with direct application to specific TNC priorities and goals.	At the time of application, eligible individuals (Ph. D. or Masters students) will be currently enrolled or will start a graduate position by September of the year they start the fellowship. Ph.D. students should have at least two years remaining on the position. Master's students at least one, but should preferably plan to start their term by May 1.	January 1st	Graduate Fellows may apply Up to \$37,000/year for a maximum research stipend totaling \$74,000 including 10.5 percent IDC over two years. Fellowships are expected to run for two consecutive years. Second-year renewal is contingent upon satisfactory progress and contribution to the collective program.	Fellowship	https://www.nature.org/en-us/about-us/who-we-are/our-science/naturenet-science-fellowships/NatureNet-Science-Fellowships
149	The Next Swell Scholarship	The Next Swell was created in part for the purpose of providing financial academic scholarships to exceptional undergraduate and graduate student candidates in pursuit of degrees in the associated fields of marine biology and marine conservation.	Undergraduate and graduate students in pursuit of degrees in marine biology/conservation field	April 1st, 2021	\$2,000	Scholarship	https://www.scholarships.com/financial-aid/college-scholarships/scholarship-directory/academic-major/marine-science/the-next-swell-scholarship
150	The Out to Innovate Scholarship	The goal of this graduate scholarship is to help develop the next generation of terrestrial wildlife conservationists and managers. Research may address the interface with agriculture and urban-managed systems. The following eligibility criteria apply: (i) good academic standing (minimum GPA of 3.0 before and throughout the scholarship); (ii) pursuing a M.S. degree in TCBEES.	Successful completion of a minimum of two years of post-high school education at an accredited U.S. college or university Minimum cumulative grade point average (GPA) of 2.75 on a 4-point scale. A declared major in an accredited STEM or STEM-related teaching field. STEM is Science, Technology, Engineering, and Math. Identify as a member of the LGBTQ+ community. Be an active supporter of and participant in programs or organizations that promote LGBTQ+ inclusion and visibility Students must be eligible for fall term registration at an accredited U.S. college or university and must not be under disciplinary sanction.	June 4 (repeats annually).	\$2,500 to \$5,000	Scholarship	https://www.nogslp.org/programs-projects/scholarships/
151	The SMART Scholarship-for-Service Program	The Science, Mathematics, and Research for Transformation (SMART) Scholarship-for-Service Program is an opportunity for students pursuing an undergraduate or graduate degree in Science, Technology, Engineering, and Mathematics (STEM) disciplines to receive a full scholarship and guaranteed civilian employment with the Department of Defense (DoD) upon degree completion.	-a citizen of the United States, Australia, Canada, New Zealand, or United Kingdom at time of application. -18 years of age or older as of August 1, 2022 -requesting at least 1 year of degree funding prior to graduation (which starts at the program start date), -able to complete at least one summer internship (multi-year scholars only) -willing to accept post-graduation employment with the DoD, -a student in good standing with a minimum cumulative GPA of 3.0 on a 4.0 scale, -pursuing a technical undergraduate or graduate degree in one of the 21 STEM disciplines listed below, -able to produce a fall 2021 college transcript from a regionally accredited US college or university. OR be pursuing a graduate degree at a regionally accredited US college or university.	December 2021	Full Tuition	Scholarship	https://www.smartscholarship.org/smart
152	The State of the World's Sea Turtles Grants	Funding for sea turtle research and conservation projects worldwide that fall within SWOT's three program areas: Networking & Capacity Building, Science, and Education & Outreach. Additional grants offered in partnership with partnering with the Association of Zoos & Aquariums and their Sea Turtle SAFE (Save Animals from Extinction) Program for projects relating to the conservation of two of the top global priorities for sea turtle conservation: Eastern Pacific leatherbacks and Kemp's ridleys.	Collaboration with an AZA-accredited organization.	October 30	\$1,000	Grant	https://www.seaturtlestatus.org/apply-for-a-grant
153	The Steven Berkeley Marine Conservation Fellowship	To honor the memory of Steven Berkeley, a dedicated fisheries scientist with a passionate interest in integrating the fields of marine ecology, conservation biology, and fisheries science to improve fisheries management.	Current graduate student actively engaged in thesis research relevant to marine conservation.	February 1 (annually)	\$10,000	Scholarship	https://mfs.fisheries.org/?page_id=155
154	The Wildlife Society Western Section	Award for TWS-W.S. members, including students, in western states (incl. Hawaii) who demonstrate financial need for a single wildlife project, such as a research study, or an event, such as a conference.	TWS-W.S. Membership	Not Given. Appears to be ongoing.	Up to \$1,000	Grant	Grants - The Western Section of the Wildlife Society (tws-west.org)
155	The Women Divers Hall of Fame	These scholarships are intended to support independent research and/or fieldwork at an accredited university; they will not support tuition, living expenses or student loan payments. The applicant should clearly state how the intended use of the scholarship will advance marine conservation. A research proposal detailing the conservation objectives, methods, and anticipated results is required.	Women and/or men enrolled in graduate program at an accredited university	10/31/2021; Annual	\$2,000	Scholarships	https://www.wdhofof.org/scholarships/sponsorship

	Thermo Fisher Scientific Antibody Scholarship Program	The Thermo Fisher Scientific Antibody Scholarship Program ("Program") will award scholarships to eligible life science students. All scholarship award payments will be made directly to the college or university at which the recipient is enrolled, upon receipt of all documentation from the recipient necessary to process payment. Scholarship funds remaining at the end of the student's college or university enrollment with the college or university holding the funds will be due and returnable to Sponsor.	Applicants must be individual persons who (a) will be a legal resident of the 50 U.S. states or District of Columbia as of August 5, 2021, enrolled as a Graduate Student, or Undergraduate Student at an accredited U.S. college or university (see U.S. Dept. of Education Database at https://ope.ed.gov/accreditation/) for Fall 2021, and (d) have a declared major of biology, chemistry, biochemistry or a related life science field. In addition	Yearly. Opens Dec 9th - Closes May 5th	This Program will award one (1) \$10,000 scholarships and five (5) \$5,000 scholarships.	Scholarship	https://www.thermofisher.com/us/en/home/life-science/antibodies/thermo-fisher-scientific-antibody-scholarship-program.html
156	Thz Fo Farm Scholarship Fund	The Thz Fo Farm Scholarship fund was established in 1990 to support the educational needs of students of Chinese descent.	--Must be a resident of the State of Hawai'i --Must demonstrate financial need --Must attend an accredited, two or four year, not-for-profit institution within the US (including US territories) --Must be a full-time student --Must be of Chinese descent --Must have a minimum GPA of 2.7 --Must be an Undergraduate or Graduate student	January 31	\$2,000	Scholarship	https://hcf.scholarships.ngwebsolutions.com/CMXAdmin/CMx_Content.aspx?cpid=544
157	Traub-Dicker Rainbow Scholarship	The Traub-Dicker Rainbow Scholarship was established by Peggy Traub and Phyllis Dicker to encourage and support lesbian women in their pursuit of higher education	Must identify as a lesbian woman and be currently enrolled in University (undergraduate or graduate level)	Spring 2022		Scholarship	https://www.stonewallfoundation.org/scholarships
158	UH System Common Scholarship Application	The UH Common App contains a broad range of scholarships aimed at students who are enrolled at any of the University of Hawai'i campuses. A number of these scholarships are specifically for graduate students, with several geared towards students going into the environmental sector. The application itself consists of a series of questions about your personal interests, educational background, financial situation (including FAFSA information) and other details. Recommendation letters are required. Based on your answers, you may be matched with available scholarships.	Open to any student seeking a degree at any of the ten UH campuses.	March 1 of each year (repeats annually).	Variable, depending on opportunities that you match with based on your responses.	Variable, depending on opportunities that you match with based on your responses.	https://www.hawaii.edu/tuition/scholarships/how-to-apply/
159	UH-OHA Ho'ona'auao Higher Education Scholarship	Funded by the Office of Hawaiian Affairs, the Ho'ona'auao Scholarship Program annually awards scholarships to students at any of the University of Hawai'i's 10 campuses.	--Must be of native Hawaiian ancestry --Must be a resident of Hawai'i --Must have received a High School Diploma or higher --Must not be receiving Kamehameha Schools financial aid for Post-secondary education -- Graduate students must have a 3.0 GPA or higher --Must be enrolled at one of the 10 UH campuses -- Must complete the Free Application for Federal Student Aid (FAFSA) --Must submit atleast 1 letter of recommendation	March 1	\$5,000	Scholarship	https://www.oha.org/scholarships/
160	University of Hawai'i Sea Grant College Program	General research funds for applied research, outreach, and education related to marine and coastal issues	Individuals in Hawai'i conducting marine and coastal research with a focus on climate change impacts and adaptation	January 15, 2021	\$35,000 per year on average, \$70,000 per year for interdisciplinary proposals	Grant	https://seagrant.soest.hawaii.edu/research/request-for-proposals/
161	US National Fish and Wildlife Foundation Terra Viva Grants	For proposals that seek to improve the recovery and conservation of sea turtle populations. The majority of projects will take place in the Western Hemisphere: leatherbacks and loggerheads in the Northwest Atlantic, and leatherbacks and hawksbills in the Eastern Pacific.	Non-profit organizations, government agencies, Indian tribes, educational institutions, businesses, and individuals	September 28 (annually)	\$50k-\$250k	Grant	https://www.nfwf.org/programs/sea-turtles/sea-turtles-program-2022-request-proposals
162	Vannevar Bush Faculty Fellowship (VBFF) Program	VBFF is oriented towards bold and ambitious "blue sky" research that may lead to extraordinary outcomes such as revolutionizing entire disciplines, creating entirely new fields, or disrupting accepted theories and perspectives.	Public and Private Institutions of Higher Education	February 4, 2022	\$3,000,000.00	Fellowship	https://www.grants.gov/web/grants/view-opportunity.html?oppId=335368
163	Western SARE Competitive Grants- Graduate Student Research and Education	General research funds for research and education/outreach aiming to advance sustainable agriculture	Full-time graduate students enrolled in an accredited university in Western US	TBA	Up to \$30,000 for up to two years	Grant	
164	Western SARE grant	This grant program involves full-time graduate students enrolled in an accredited university of Western U.S., their academic advisor (applicant), and producers implementing projects to address identified needs in sustainable agriculture and environmental studies. With the collaboration of producers, projects must integrate rigorous research and education aiming to advance the three components of sustainable agriculture- environmental, economic, and social. It is expected that outcomes of funded projects will result in quantifiable benefits for producers, increase the preservation of the natural and social resources upon which agriculture relies, and be documented in scholarly journals and disseminated throughout educational outreach activities with producers and other agricultural stakeholders.	Full-time graduate students enrolled in an accredited university of the Western United States including Hawaii.	December 2021	Maximum \$30,000 for up to two years distributed through their advisor.	This is a grant.	Western SARE grant https://www.sare.org/wp-content/uploads/WSARE-Graduate-Student-Call-for-Proposal-2021.pdf
165	Wildlife Conservation Society: Conservation Leadership Programme, Future Conservationist Award	Award and support for teams training an emerging conservation leader aiming to protect biodiversity in a developing country.	Team must be at least 3 people, and 50% or more must be nationals to the eligible country (most are developing countries, but Puerto Rico, Guam, and Mariana and Virgin Islands are included). May be used to fund Master's or Ph.D. research, but this cannot be the primary focus, and the project must go beyond the scope of the research.	10/10/2021 for 2022. Annual	15000	Grant	Guidelines_Future-Conservationist-Award_2022.pdf (conservationleadershipprogramme.org)
166	Wilson Ornithological Society	Wilson Ornithological Society offers five categories of research grants. The focus of each differs somewhat, as does the amount of the award (see eligibility for details)	Louis Agassiz Fuertes Grants- Available to all ornithologists, although graduate students and young professionals are preferred. Any avian research is eligible. George A. Hall / Harold F. Mayfield Grant- This award is limited to independent researchers without access to funds and facilities available at colleges, universities, or governmental agencies, and is restricted to non-professionals, including high school students. Any kind of avian research is eligible. Wilson Ornithological Society Research Grants- For work in any area of ornithology. Two of these awards will be limited to research by Masters students. Paul A. Stewart Grants- Preference will be given to proposals for studies of bird movements (based on banding, radio or satellite telemetry, or similar methods) or an emphasis on economic ornithology.	Currently closed for 2021, 2022 applications will be due in Feb 2022 when posted (check website for opening application dates)	Louis Agassiz Fuertes Grants- up to \$2500, George A. Hall / Harold F. Mayfield Grant- up to \$1000, Wilson Ornithological Society Research Grants- up to \$1500, Paul A. Stewart Grants- up to \$1000	Grants	https://wilsonsociety.org/awards/research-grants/
167							

168	Women Divers Hall of Fame Marine Conservation Graduate Scholarship	Dedicated to honoring and raising awareness of the contributions of outstanding women divers. Provides educational, mentorship, financial, and career opportunities to the diving community throughout the world.	Qualified women of any age who are enrolled in an accredited graduate academic or research program in the field of marine conservation.	October 31	\$2,000	Scholarship	https://www.wdhof.org/scholarship/marine-conservation-scholarship-graduate
169	Zale Parry Scholarship	Person enrolled in graduate study in any of the following fields of study: Aquatic Biology, Ecology, and other Marine Science related fields, marine conservations and Education	Resident of U.S. or Canada, certified scuba diver, currently enrolled in a graduate school program.	August 31st, 2021	\$6000 & \$500 travel voucher to scholarship presentation ceremony	Scholarship	https://www.augas-nogi.org/terms-scholarship
